

FELT WALLET

Turn a plain wallet into a beautiful gift for Mummy or Daddy this Valentine's Day.

What you need:

Cloth wallet or purse

Small pieces of felt in colours you like (from art and craft shops)

A pair of scissors

Art glue

Magazines with shapes or letters that you like

What to do:

1. Choose a shape or letter of the alphabet from a magazine and cut it out. This will be your stencil for the felt shape. Or, if you have a printer at home, you can ask a parent to help find and print out a letter or shape.
2. Put the letter or shape over a piece of felt and cut around it. You can cut many different shapes and place them over each other, in different colours.
3. Once you have decided on the shapes you want, glue them to the wallet. You can also ask Mummy to sew the shapes onto the wallet to make it even stronger.
