

## THERE ARE PATTERNS EVERYWHERE

Look at what happens when you add 10 to these numbers.

$$2 + 10 = 12 \quad 3 + 10 = 13$$

Do you see a pattern?

See if you can work out these equations.

a)  $4 + 10 =$

b)  $5 + 10 =$

c)  $6 + 10 =$

You can use your fingers to help you add up these equations – have one finger represent the number 10 and then add the smaller numbers with your other fingers.

Here are more equations you can try.

$$13 + 10 = 23$$

d)  $14 + 10 =$

e)  $15 + 10 =$

f)  $16 + 10 =$

$$23 + 10 = 33$$

g)  $24 + 10 =$

h)  $25 + 10 =$

i)  $26 + 10 =$
